Gender: *

- Female
- Male
- Others

What program are you pursuing now? *

- 1. BSc CS
- 2. BCA
- 3. BA
- 4. BBA
- 5. BCom F
- 6. BCom CA

Section 2 of 2

Student Satisfaction Survey on Teaching Learning Process

Description (optional)

How much of the syllabus was covered in the class? *

- 1. 85 to 100%
- 2. 70 to 84%
- 3. 55 to 69%
- 4. 30 to 54%
- 5. Below 30%

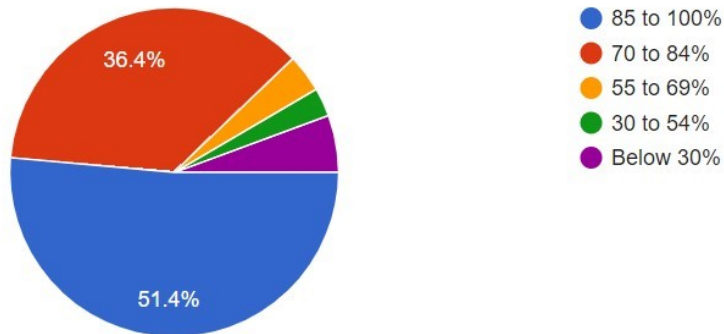

3. Diagrammatical responses of Google form responses

Student Satisfaction Survey on Teaching Learning Process

How much of the syllabus was covered in the class?

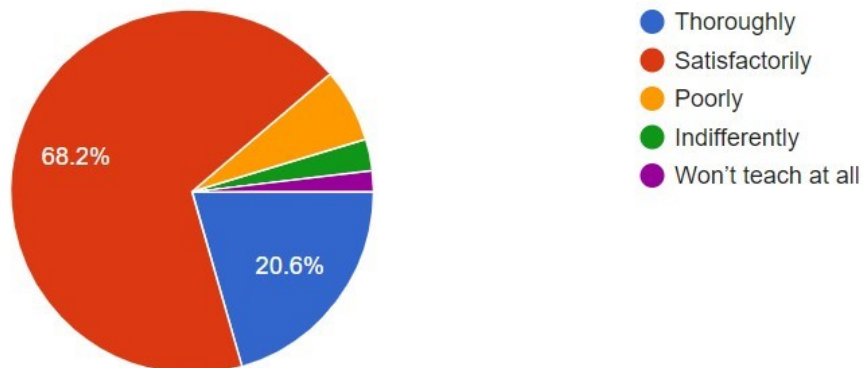

107 responses

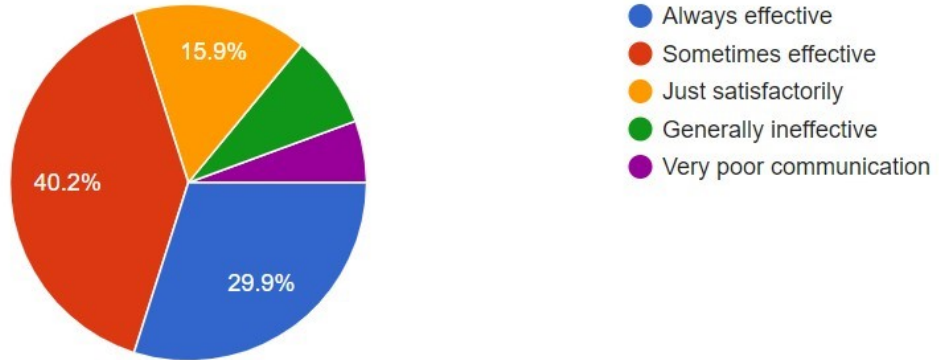

How well did the teachers prepare for the classes?

107 responses

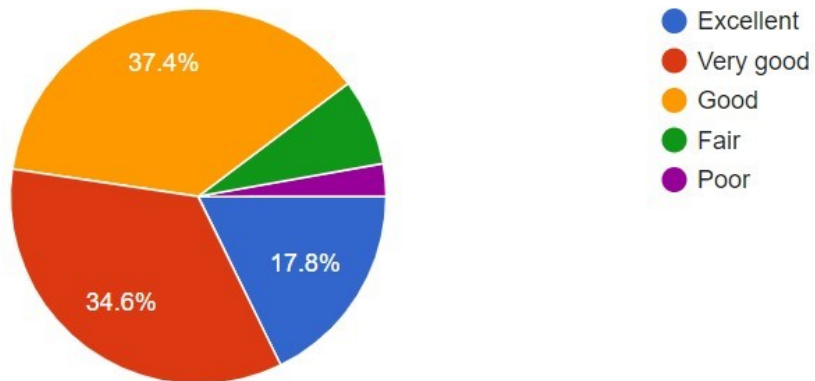

How well were the teachers able to communicate?

107 responses

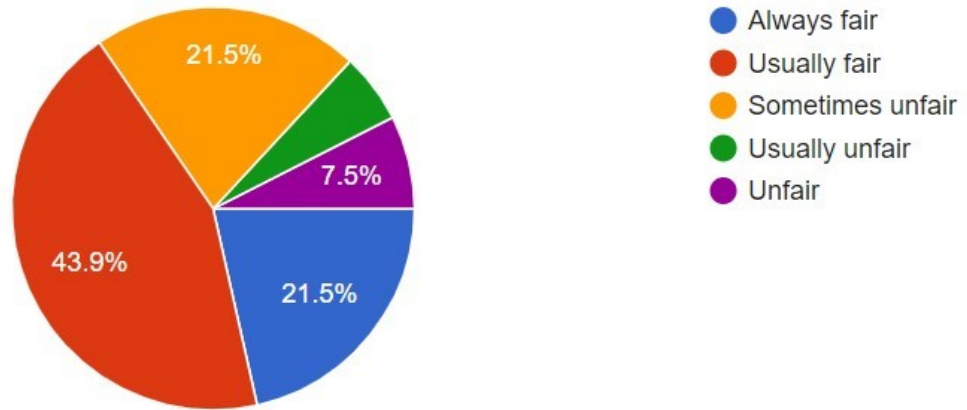

The teacher's approach to teaching can best be described as

107 responses

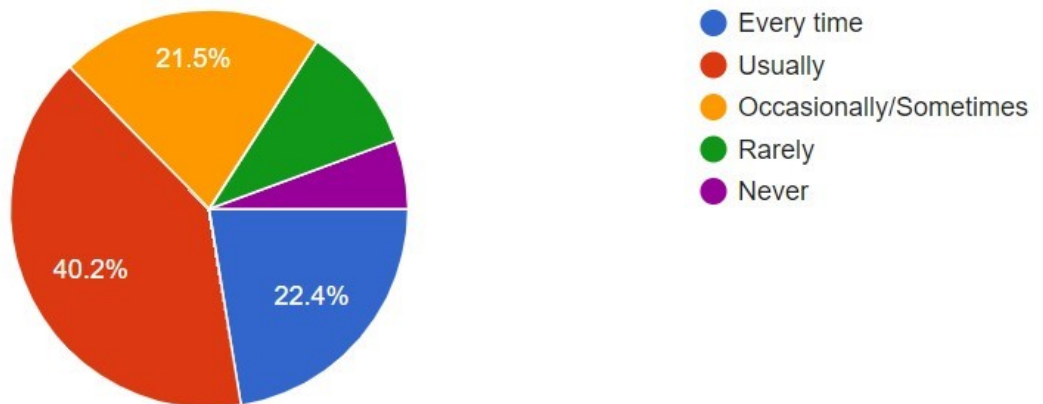

Fairness of the internal evaluation process by the teachers.

107 responses

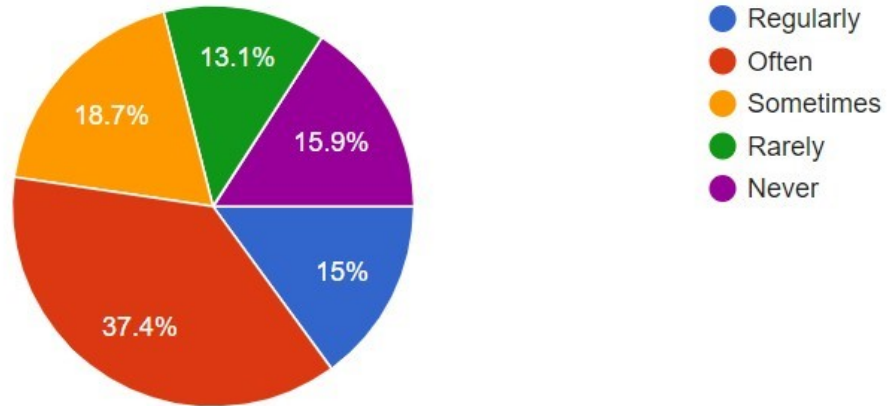

Was your performance in assignments discussed with you?

107 responses

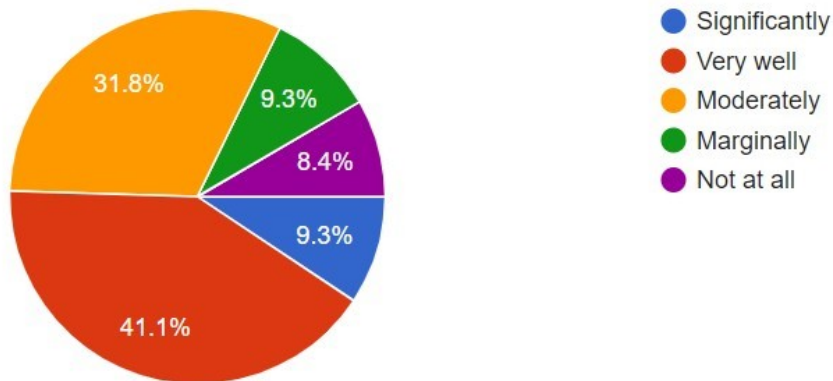

The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

107 responses

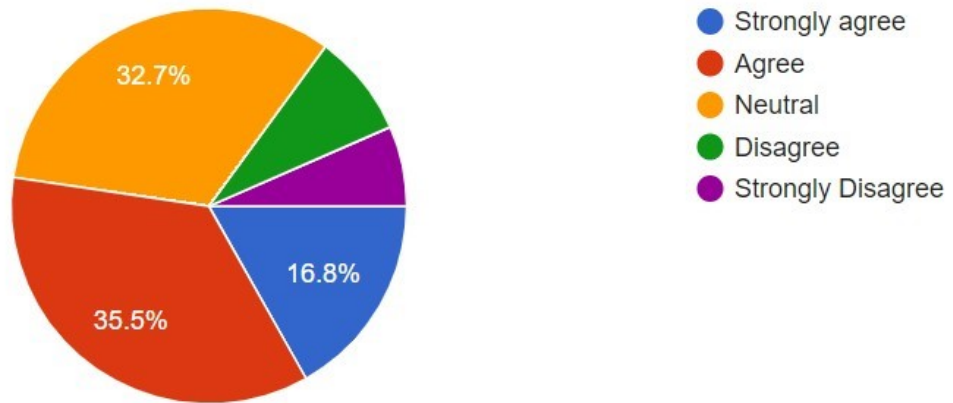

The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

107 responses

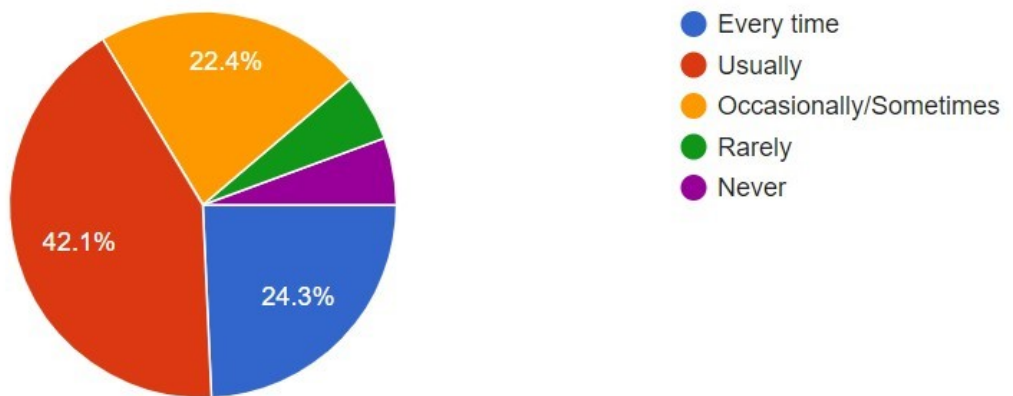

The institution provides multiple opportunities to learn and grow

107 responses

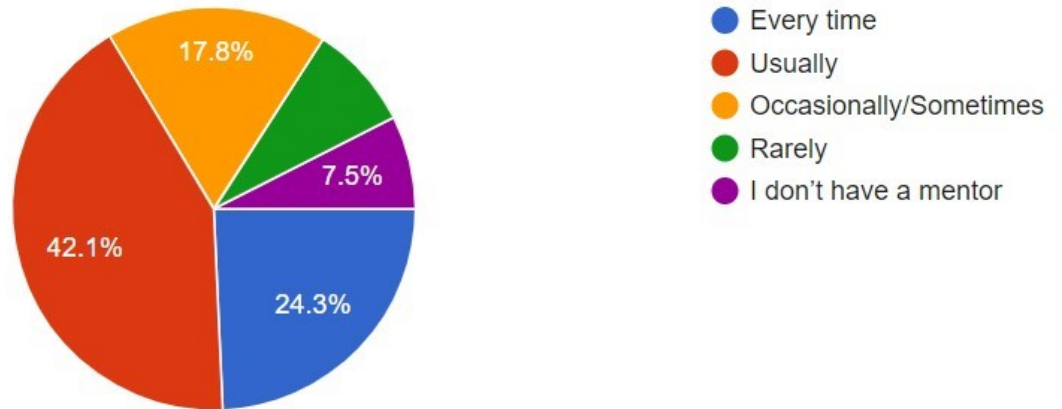

Teachers inform you about your expected competencies, course outcomes and programme outcomes.

107 responses

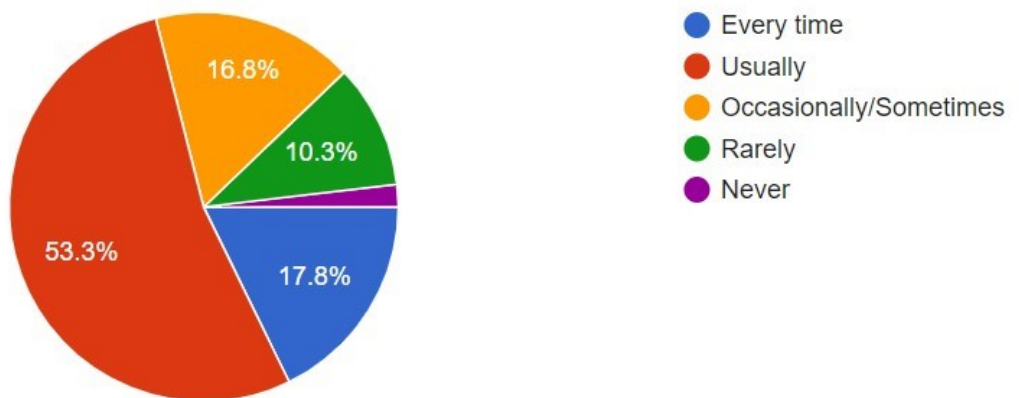

Your mentor does a necessary follow-up with an assigned task to you.

107 responses

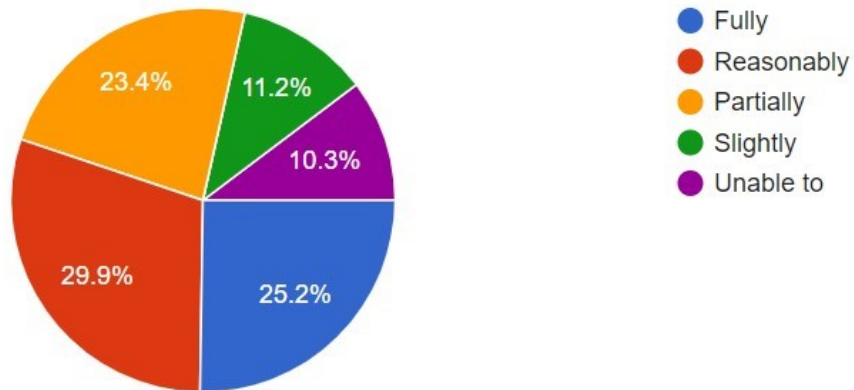

The teachers illustrate the concepts through examples and applications.

107 responses

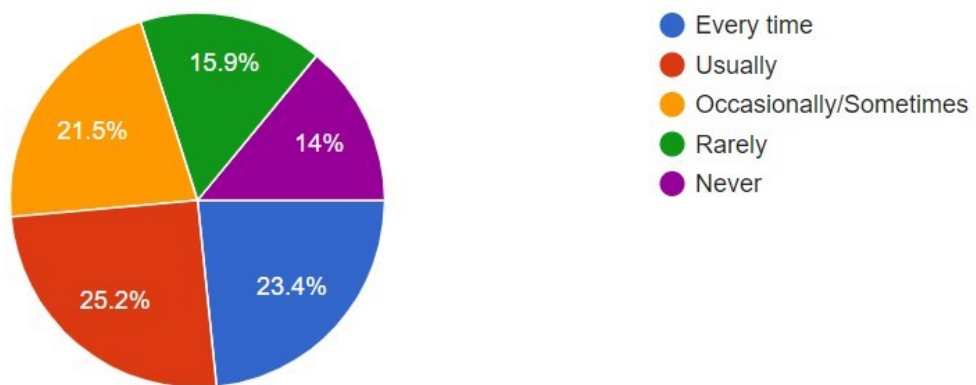

The teachers identify your strengths and encourage you with providing right level of challenges.

107 responses

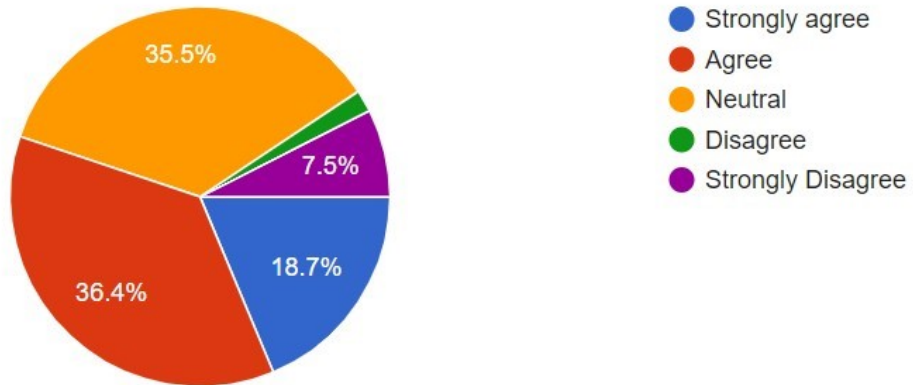

Teachers are able to identify your weaknesses and help you to overcome them

107 responses

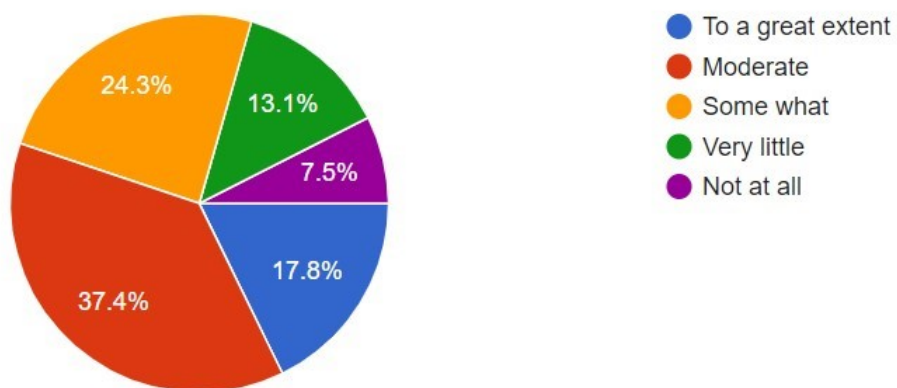

The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

107 responses

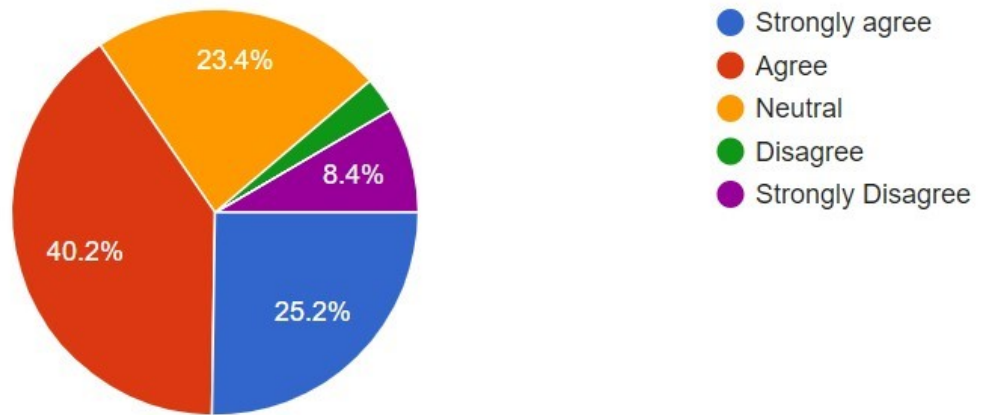

The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

107 responses

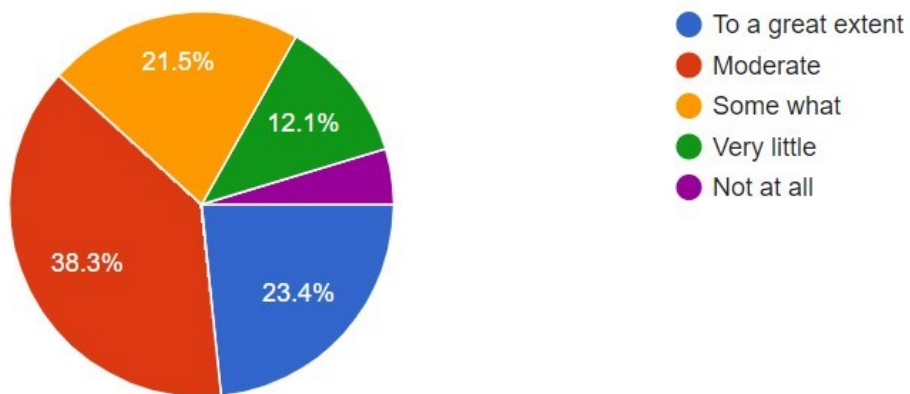

Teachers encourage you to participate in extracurricular activities.

107 responses

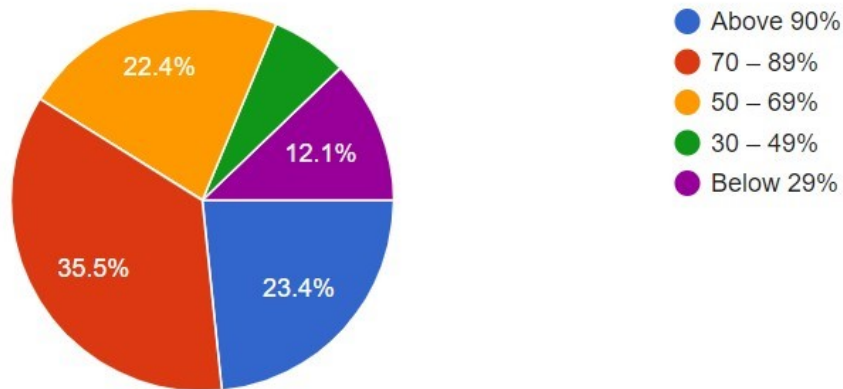

Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

107 responses

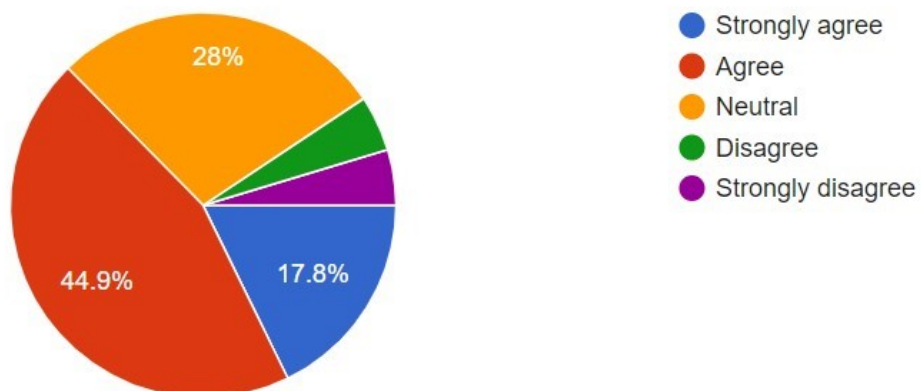

What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

107 responses

The overall quality of teaching-learning process in your institute is very good.

107 responses

4. Observation / suggestions given by students

Good
Nothing
Overall good
Use boards while teaching. pblm papers are taking like lecture classes.
For problem papers give more notes and explanation
I am a final year student .so really satisfied with our teachers .because all teachers are always give a push to improve our studys every time .teachers in this i nstitute are the best .i am proud about my college .
Improve ICT enabled teaching
Avoid rushing and completing too much portions in a day, Make sure that students understand the concepts clearly (explain with examples), Make the class interesting everyday so that students show interest in attending classes properly.
Effective Communication, seek attention of students, give breaks
Make more student friendly atmosphere
More interactive sessions needed, Teacher student bonding should be encouraged
Learning experience is very good.
Friendly relationship with students Some more responsible Give more internal marks
Can ask more questions in class
More interactive sessions will be better
Think wisely guys
provide internship programs teach by using real project work (they teaching syllabus only and a add on course)
Try to encourage each and every students. Not only the calibre students.sometimes some students can grow with your support.
Setting up of good atmosphere for students for enjoyment also Students coming to college not only for studies. They also come to some relaxation and to enjoy their College life. So make sure that don't make the college as felt like a jail to students
Please don't take cash from the students for not using the college facilities during this pandemic and also having online cla ss. Even tho the college is not providing any cash or cash equivalents for internet connection for a student to attend the online class. It will be a shame to apply fees for the institutional facilities which the Stu dents are not using them .
Can include some entertainment programs
The management wants to make sure that all students in the institute should have equal importants in studies and extra cirivular activities
Include some entertainment programs
Cancel university exams Save student life Student life matter
It good but need to improve in many things
Consider students as humans not robots. Explain real world applications where the study materials are used. Exams results does not show the real ability.
Experiential learning has to be promoted , Entrepreneurial activities have to be promoted in an organized manner ,Increase the proportion of Ph.D/M.Phil qualified faculty members in each department.,Improve the quality and quantity of MoUs. MoUs haven't given any visible benefit to students so far.
HIRE BETTER TALENT, PLEASE.
Field Visits should be promoted more.This year commerce students were able to visit fields and computer science student weren't.
Internships and Add On courses could have been more beneficial. It shouldn't be provided just for the sake of conducting them . The certificates are helpful but at the same time the courses and topics selected could have been better.
This year we were asked to attend offline classes few days, instead of that if practical lab sessions were conducted it would have helped us. We still have 3 lab sessions pending for the exam coming next week.
We only got to use the language lab twice during the entire couse and smart classes were provided very little (I mean finger countable little) and please stop fooling students with your brand new YouTube advertisement. Thank u
Bring the backbenchers in to all activities like anchoring and all. because, they always choose best students it's not fair they also want to impr ove.
Teachers should try to give notes during the online classes. So that i will be helpful for the students to study easily.
Teachers are really encouraging our students ..they can help our weakness and strength situations
Know each student deeply
The mentoring part can became improved, and also helps the students to get confident and face the world. Help each student to find their abilities and help them to build as well as weaknesses also. Each student have feeling. Some of them are introvert.. Or some of them are extrovert. So help st udents to achive their goals.
Try to speak in malayalam for translating sentence because of some of them understood but some of them don't understand so when it's should be done its already done
Unfair in internal marks very bad as the thought of teachers is that the marks .
Improve the theory classes to a fruitful section
Provide the students with quality education not only theory classes but also certain programs where they can make the theory into practice where all the st udents should get opportunity.
provide support to all the clubs in the college mainly ED club provide them with all the necessary facilities in the college .there are many talented students who have various great thoughts and ideas.
Give training to the students to get rid of thier stage fear and to attain soft skill from first year onwards.
Whatever you do to improve the system giving internal marks should be the main concern.
The use of projectors
Improve the campus facilities,Improve the communication to students,Improve the quality of education
Bad institutions looking for only fees
* Improve source materials for study according to syllabus.

Naipunnya Institute of Management and Information Technology

Give more importance for teaching students subjects like Problem solving, quick decision making, life skills and making up to date about industries, which is more necessary in real life and entrepreneurship development too.

Please take care about training and placement. Confirm students are ready for exams otherwise take revision classes. Follow up placement. Students those completed the course

Better take classes in Malayalam for easy understanding

Each computer lab for each department and systems should be used by respective departments students.

The food production practical classes should be more responsive. The students' skills must be improved and help them to improve it. The training should be given by the college responsibly, it's very important for the HM students however we didn't get. (2018-2021)

Need improvement in online classes

Humanity is Everything

Should give more notes for studying

Promote reading

Support to improve communication skills between students 2) Make more interaction between faculty and students

Excellent, and give to many chances to future carrier

Teachers should not only be qualified with degrees, but also qualified enough to teach it well.

Teachers try to communicate each and every students.

Individual evaluation Internship Motivation

Extra curricular activities/Non academic activities should be given equal priority. - Delegating the non academic activities to students can reduce the extra burden on teaching staff. Let them guide students. -

Try to include more internship programmes

Arrange more extra curricular activities

More outreach programs should be done Use better graphics and visual media

Improve cultural functions
