UNIVERSITY OF CALICUT

BBA HONOURS

(MAJOR, MINOR AND GENERAL FOUNDATION COURSES)

SYLLABUS & MODEL QUESTION PAPERS

w.e.f. 2024 admission onwards

(CUFYUGP Regulations 2024)

BBA HONOURS

(MAJOR, MINOR AND GENERAL FOUNDATION COURSES)

SYLLABUS

ELIGIBILITY FOR ADMISSION

Any candidate who has passed the Plus Two of the Higher Secondary Board of Kerala or that of any other University or Board of Examinations in any state recognized as equivalent to the Plus Two of the Higher Secondary Board in Kerala, with not less than 45% marks in aggregate is eligible for admission, However, SC/ST, OBC and other eligible communities shall be given relaxation as per University rules.

MEDIUM OF INSTRUCTION

The medium of instruction and examination shall be English.

PROGRAMME OUTCOMES (PO):

At the end of the graduate programme at Calicut University, a student would:

	Knowledge Acquisition:
PO1	Demonstrate a profound understanding of knowledge trends and their impact on the
	chosen discipline of study.
	Communication, Collaboration, Inclusiveness, and Leadership:
PO2	Become a team player who drives positive change through effective communication,
	collaborative acumen, transformative leadership, and a dedication to inclusivity.
	Professional Skills:
PO3	Demonstrate professional skills to navigate diverse career paths with confidence and
	adaptability.
	Digital Intelligence:
PO4	Demonstrate proficiency in varied digital and technological tools to understand and
	interact with the digital world, thus effectively processing complex information.
	Scientific Awareness and Critical Thinking:
PO5	Emerge as an innovative problem-solver and impactful mediator, applying scientific
PO3	understanding and critical thinking to address challenges and advance sustainable
	solutions.
	Human Values, Professional Ethics, and Societal and Environmental Responsibility:
PO6	Become a responsible leader, characterized by an unwavering commitment to human
PO	values, ethical conduct, and a fervent dedication to the well-being of society and the
	environment.
	Research, Innovation, and Entrepreneurship:
PO7	Emerge as a researcher and entrepreneurial leader, forging collaborative partnerships
ru/	with industry, academia, and communities to contribute enduring solutions for local,
	regional, and global development.

PROGRAMME SPECIFIC OUTCOMES (PSO):

At the end of the BBA Honours programme at Calicut University, a student would:

PSO1	Demonstrate professional development on fundamentals of management and personal development through engagement in real world business scenario						
PSO2	Exhibit critical thinking and managerial competencies through effective communication, teamwork, problem solving, decision making, ICT and project management skills.						
PSO3	Create innovative systems and best practices in both domestic and global areas of work that are replicable and feasible.						
PSO4	Emerge as intrapreneur/entrepreneur leveraging on opportunities with relevant traits of a visionary leader

Note (1): Core Courses 2, 5, & 9 can be offered to students of other Major disciplines as Minor courses of Group 1, and Core courses 3, 6 &10 can be offered to them as Minor courses of Group 2. Core Courses 18, & 19 can be offered to eighth semester students of other Major disciplines as Minor courses.

Audit Courses

There are four mandatory Audit Courses or zero-credit courses that the students must attend in different semesters. Two of them are Ability Enhancement Courses offered by Additional Languages in the first and second semesters. The other two are Discipline Specific Elective courses in the fifth and sixth semesters. Students need to complete 75% attendance in Ability Enhancement Courses offered by Additional Languages in the first and second semesters, but need not appear for the internal and external evaluation of these courses. Discipline Specific Elective courses in the fifth and sixth semesters are not meant for class room study. The students can choose any course in management discipline and attend these courses online in platforms like SWAYAM, MOOC etc.

NB: - Except AEC's, MDC 2(KS), VAC2; all other courses including VAC1, VAC3, MDC1, all SEC's, all core/major courses, all elective courses and open elective shall be taught by Major Discipline Faculty only.

EVALUATION SCHEME

- 1. The evaluation scheme for each course contains two parts: internal evaluation (about 30%) and external evaluation (about 70%). Each of the Major courses is of 4-credits. It is evaluated for 100 marks, out of which 30 marks is from internal evaluation and 70 marks, from external evaluation. Each of the General Foundation course is of 3-credits. It is evaluated for 75 marks, out of which 25 marks is from internal evaluation and 50 marks, from external evaluation.
- 2. The 4-credit courses (Major courses) are of two types: (i) courses with only theory and (ii) courses with 3-credit theory and 1-credit practicum.
 - In 4-credit courses with only theory component, out of the total 5 modules of the syllabus, one open-ended module with 20% content is designed by the faculty member teaching that course, and it is internally evaluated for 10 marks. The internal evaluation of the remaining 4 theory modules is for 20 marks.
 - In 4-credit courses with 3-credit theory and 1-credit practicum components, out of the total 5 modules of the syllabus, 4 modules are for theory and the fifth

- module is for practicum. The practicum component is internally evaluated for 20 marks. The internal evaluation of the 4 theory modules is for 10 marks.
- **3.** 3-credit courses (General Foundational Courses) in BBA are of two types: (i) courses with only theory and (ii) courses with 2-credit theory and 1-credit practicum.
 - In 3-credit course with only theory out of the total 5 modules of the syllabus, one open-ended module with 20% content is designed by the faculty member teaching that course, and it is internally evaluated for 5 marks. The internal evaluation of the remaining 4 theory modules is for 20 marks.
 - In 3-credit courses with 2-credit theory and 1-credit practicum components, out of the total 5 modules of the syllabus, 4 modules are for theory and the fifth module is for practicum. The practicum component is internally evaluated for 15 marks. The internal evaluation of the 4 theory modules is for 10 marks.

Sl. No.	Nature of the Course		ature of the Course Internal Evaluation in Marks (about 30% of the total)		External Exam	Total Marks
			Open-ended module / Practicum	On the other 4 modules	on 4 modules (Marks)	
1	4-credit course	only theory (5 modules)	10	20	70	100
2	4-credit course	Theory (4 modules) + Practicum	20	10	70	100
3	3-credit course	Only Theory (5 modules)	5	20	50	75
4	3-credit course	Theory (4 modules) + Practicum	15	10	50	75

The candidates must undergo two internships in any business organisation/local industries/Agriculture, health and allied sectors/Local Government institutions like Panchayats, Municipalities for a period of 120Hrs duration during summer vacation. Internship-1 should be completed preferably before the beginning of 5th Sem, and Internship-2 should be completed preferably before the beginning of 7th Sem and prepare a report based on the information collected.

2.1. GUIDELINES FOR INTERNSHIP

- 1. Internship can be in Management or allied disciplines.
- 2. There should be minimum 120 hrs. of engagement from the student in the Internship.
- 3. Summer vacations and other holidays can be used for completing the Internship.
- 4. The students should make regular and detailed entries in to a personal log book through the period of Internship. The log book will be a record of the progress of the Internship and the time spent on the work, and it will be useful in writing the final report. All entries should be dated. The Internship supervisor should periodically examine and countersign the log book.
- 5. The log book and the typed report must be submitted at the end of the Internship.

6. The institution at which the Internship will be carried out should be prior-approved by the Department Council of the college where the student has enrolled for the UG (Honours) programme.

2.2. EVALUATION OF INTERNSHIP

- The evaluation of Internship shall be done internally through continuous assessment mode by a committee internally constituted by the Department Council of the college where the student has enrolled for the UG (Honours) programme.
- The credits and marks for the Internship will be awarded only at the end of semester 5 & semester 7.
- The scheme of continuous evaluation and the end-semester viva-voce examination based on the submitted report shall be as given below:

Component of Evaluation of Internship	Weightage	Marks/100
Continuous Evaluation of internship	40%	40
through interim presentation and reports		
by the committee internally constituted by		
the Department Council.		
End-Semester viva-voce examination to	35%	35
be conducted by the committee internally		
constituted by the Department Council.		
Evaluation of the day-to-day records and	15%	15
final report submitted for the end semester		
viva-voce examination by the committee		
internally constituted by the Department		
Council.		
Business Organization/ Local Industries/	10%	10
Agriculture, Health and allied		
sectors/Local Government Institutions		

REPORT FORMAT

- 1. The report must be typed (double spaced), in APA format. Use standard margins (1" to 1.25") and font (Times New Roman, 12) and should contain maximum of 10-15 pages.
- 2. The report consists of the following information in this order:

Starting Pages

- 1. Title Page
- 2. Acknowledgement

3. Executive Summary

4. Table of Contents

Chapter 1: Brief Industry Profile

Chapter 2: Introduction of Company

Chapter 3: Organizational Analysis

Chapter 4: Internee Experience

a. A brief overview of the main business processes that the internee worked around

b. A brief overview of various departmental functions that the internee had the opportunity to observe

c. A narrative of personal experience in the intern's own words that may include: any new discoveries or observations made during the internship, any problems identified, personal account of interactions with others at the workplace, and specific skills learned.

Chapter 5: Future recommendations for a suitable course of action in the organizational context

Chapter 6: A short essay identifying the gaps in classroom learning and experiential learning at the internship.

7. Appendices

EVALUATION CRITERIA FOR INTERIM PRESENTATION

Understanding of the Field (15 Marks)	Challenges and Solutions (15Marks)	Communication Skills (5Marks)	Use of Visual Aids (5Marks)

EVALUATION CRITERIA FOR VIVA-VOCE

Depth of	Integration of	Communication Skills	Project Report
Understanding	Academic Knowledge	(2Marks)	(8 Marks)
(15 Marks)	and Practical		
	Application (10		
	Marks)		

3. PROJECT

PROJECT IN HONOURS PROGRAMME

• In Honours programme, the student should do a Project of 8-credits in semester 8.

- The Project can be done in the same institution/ any other higher educational institution (HEI)/ research centre/ training centre.
- The Project in Honours programme can be a short research work or an extended internship or a skill-based training programme.
- A faculty member of the respective institution, where the student does the Project, should be the supervisor of the Project.

	their choice, underpinned by rigorous research and creative methodology.				
	It is an invitation to embark on an academic voyage that prioritizes critical				
	thinking, problem-solving, and innovation, all within the framework of				
	scholarly research. Students will engage in a self-directed project that not				
	only contribute	s to their fiel	d of study b	ut also encour	ages a personal
	journey of disco		•		
	•				

EVALUATION OF PROJECT

- 1. The evaluation of project work shall be done internally through continuous assessment mode by a committee internally constituted by the Department Council.
- **2.** The remaining 70% shall be awarded by the external examiner appointed by the University.
- 3. The scheme of continuous evaluation and the end-semester viva-voce of the project

Component of Evaluation of Project	Weightage	Marks/200
Continuous Evaluation of project through	30%	60
interim presentation and reports by the		

committee internally constituted by the		
Department Council.		
End-Semester viva-voce examination to	50%	100
be conducted by the external examiner		
appointed by the University.		
Evaluation of the day-to-day records and	20%	40
final report submitted for the end semester		
viva-voce examination by the committee		
internally constituted by the External		
Examiner		

4. EVALUATION CRITERIA FOR INTERIM PRESENTATION

Clarity of Research Question (15Marks)	Originality and Creativity (10 Marks)	Methodological Rigor (15 Marks)	Progress and Milestones (15 Marks)	Communication& Presentation Skills (5 Marks)

5. EVALUATION CRITERIA FOR VIVA-VOCE

Comprehension and Depth of Knowledge (10 Marks)	Methodological Rigor and Integrity (10 Marks)	Contribution &Implications (20 Marks)	Communication Skills (10 Marks)	Response to Questions (20 Marks)	Project Report (30 Marks)

FORMAT OF PROJECT REPORT

The report shall be printed and bound (preferably hard paper bound) with not less than 60 (A4 size) pages. The matter should be typed with double line spacing. The Fond Size for the text should be 12 with style Times New Roman. One inch margin should be left on top and bottom of the page, as well as left and right side of the typed pages.

- A. Preface Section: Title page of the report Declaration by the student Certificate from supervisory faculty counter Signed by Head of the Institution. Acknowledgement Chapter content List of tables- List of figures
- B. Executive Summary (Minimum 1 page)
- C. Chapters

Chapter 1: Introduction (includes statement of the problem, objectives of the study, scope of the study, hypotheses if any, methodology employed, and limitations of the study)

Chapter 2: Industry profile/ Company profile/ Product profile/ Unit of study

Chapter 3: Review of literature (the review should be conducted by referring similar nature of studies conducted in academic journals, books, magazines, newspapers and other published sources)

Chapter 4: Data analysis and interpretation (data should be described and the collected data should be analyzed using appropriate tools)

Chapter 5: Findings, Conclusion and Recommendations

D. Bibliography

It should be prepared based on the guidelines prepared and updated by the American Psychological Association (APA style).

PROJECT IN HONOURS WITH RESEARCH PROGRAMME

- Students who secure 75% marks and above (equivalently, CGPA 7.5 and above) cumulatively in the first six semesters are eligible to get selected to Honours with Research stream in the fourth year.
- A relaxation of 5% in marks (equivalently, a relaxation of 0.5 grade in CGPA) is allowed for those belonging to SC/ ST/ OBC (non-creamy layer)/ Differently-Abled/ Economically Weaker Section (EWS)/ other categories of candidates as per the decision of the UGC from time to time.
- In Honours with Research programme, the student has to do a mandatory Research Project of 20-credits in semester 8.
- The approved research centres of University of Calicut or any other university/ HEI can offer the Honours with Research programme. The departments in the affiliated colleges under University of Calicut, which are not the approved research centres of the University, should get prior approval from the University to offer the Honours with Research programme. Such departments should have minimum two faculty members with Ph.D., and they should also have the necessary infrastructure to offer Honours with Research programme.
- A faculty member of the University/ College with a Ph.D. degree can supervise the
 research project of the students who have enrolled for Honours with Research. One such
 faculty member can supervise maximum five students in Honours with Research
 stream.

- The maximum intake of the department for Honours with Research programme is fixed by the department based on the number of faculty members eligible for project supervision, and other academic, research, and infrastructural facilities available.
- If a greater number of eligible students are opting for the Honours with Research programme than the number of available seats, then the allotment shall be based on the existing rules of reservations and merits.

EVALUATION CRITERIA FOR INTERIM PRESENTATION

Clarity of Research Question (40Marks)	Originality and Creativity (30 Marks)	Methodological Rigor (40 Marks)	Progress and Milestones (50 Marks)	Communication& Presentation Skills (20 Marks)

EVALUATION CRITERIA FOR VIVA-VOCE

Comprehension and Depth of Knowledge (40 Marks)	Methodological Rigor and Integrity (40Marks)	Contribution &Implications (60 Marks)	Communication Skills (30 Marks)	Response to Questions (40 Marks)	Project Report (90 Marks)

FORMAT OF PROJECT REPORT

The report shall be printed and bound (preferably hard paper bound) with not less than 100 (A4 size) pages. The matter should be typed with double line spacing. The Fond Size for the text should be 12 with style Times New Roman. One inch margin should be left on top and bottom of the page, as well as left and right side of the typed pages.

1. Title Page

The title page should succinctly capture the essence of the research while being inviting to a broad audience. It includes the thesis title, author's name, the institution, and the date. A compelling title can spark interest and set the stage for the narrative journey of the thesis.

2. Abstract

A well-crafted abstract serve as a microcosm of the research, providing a concise summary of the thesis's aim, methodology, findings, and implications. In this section, creativity lies in the ability to distil complex ideas into accessible language that entices a diverse readership.

3. Dedication and Acknowledgments

This section allows for personal expression, dedicating the work to individuals or groups who have been instrumental in the research journey. Acknowledgments give a human touch to the academic endeavour, highlighting the collaborative nature of knowledge creation.

4. Table of Contents

A navigational tool that should not only be functional but also reflective of the thesis's structure and creativity. Creative formatting and clear organization can make the table of contents an inviting roadmap to the thesis.

5. Introduction

The introduction lays the foundation, stating the research problem, objectives, and significance. Here, storytelling can be employed to weave a compelling narrative that frames the research question within a broader context, making it relevant to real-life situations.

6. Literature Review

A critical survey of existing literature, this section is an opportunity to creatively synthesize and critique previous work, highlighting gaps the thesis aims to fill. The use of visual aids, such as mind maps or infographics, can enrich this section by providing innovative summaries of complex academic dialogues.

7. Theoretical Framework

The theoretical framework in research is a vital component that underpins and guides the entire research process. It serves as the foundation upon which the research is built, providing a lens through which the study is conducted and understood. Essentially, the theoretical framework offers a structured approach to understanding, explaining, and making predictions about a given phenomenon or topic of interest. It does this by integrating concepts, theories, and models that are relevant to the research question or problem.

8. Methodology

Detailing the research design, methods, and analysis techniques, this section benefits from clarity and precision. Creative methodologies that utilize emerging technologies or interdisciplinary approaches can be highlighted here, showcasing the thesis's innovative edge.

9. Results and Discussion

This section presents the findings and interprets their implications. Creativity can be expressed through the use of visual storytelling with charts, graphs, and illustrations to make data compelling and digestible. A narrative approach to discussing the results can link them to broader themes and real-world implications.

10. Conclusion and Recommendations

The conclusion synthesizes the findings, reflects on the research's limitations, and suggests future research directions. This section can be an avenue for visionary thinking, proposing creative applications of the research and its potential impact on society.

11. References

Adherence to academic standards is crucial in the references section, but creativity can be shown in the organization and presentation style, making it easier for readers to explore the cited works.

12. Appendices

This section can house supplementary material in various formats, including datasets, code, questionnaires, or multimedia elements. Creatively integrating digital content can enhance the thesis's accessibility and engagement.

13. Digital and Interactive Elements

Incorporating digital elements like hyperlinks to datasets, online platforms for interactive visualizations, or even augmented reality (AR) experiences can revolutionize the way findings are presented and engaged with.

4. LETTER GRADES AND GRADE POINTS

- Mark system is followed for evaluating each question.
- For each course in the semester letter grade and grade point are introduced in 10-point indirect grading system as per guidelines given below.
- The Semester Grade Point Average (SGPA) is computed from the grades as a measure of the student's performance in a given semester.
- The Cumulative GPA (CGPA) is based on the grades in all courses taken after joining the programme of study.

 Only the weighted grade point based on marks obtained shall be displayed on the grade card issued to the students.

LETTER GRADES AND GRADE POINTS

Sl.	Percentage of Marks	Description	Letter	Grade	Range of	Class
No.	(Internal & External		Grade	Point	Grade	
	Put Together)				Points	
1	95% and above	Outstanding	О	10	9.50 – 10	First Class
2	Above 85% and below 95%	Excellent	A+	9	8.50 – 9. 49	with Distinction
3	75% to below 85%	Very Good	A	8	7.50 - 8.49	
4	65% to below 75%	Good	B+	7	6.50 - 7.49	
5	55% to below 65%	Above Average	В	6	5.50 – 6.49	First Class
6	45% to below 55%	Average	С	5	4.50 - 5.49	Second Class
7	35% to below 45% aggregate (internal and external put together) with a minimum of 30% in external valuation	Pass	P	4	3.50 – 4.49	Third Class
8	Below an aggregate of 35% or below 30% in external evaluation	Fail	F	0	0-3.49	Fail
9	Not attending the examination	Absent	Ab	0	0	Fail

- When students take audit courses, they will be given Pass (P) or Fail (F) grade without any credits.
- The successful completion of all the courses and capstone components prescribed for the three-year or four-year programme with 'P' grade shall be the minimum requirement for the award of UG Degree or UG Degree (Honours) or UG Degree (Honours with Research), as the case may be.

5.1. COMPUTATION OF SGPA AND CGPA

• The following method shall be used to compute the Semester Grade Point Average (SGPA):

The SGPA equals the product of the number of credits (Ci) with the grade points (Gi) scored by a student in each course in a semester, summed over all the courses taken by a student in the semester, and then divided by the total number of credits of all the courses taken by the student in the semester,

i.e. SGPA (Si) =
$$\Sigma i$$
 (Ci x Gi) / Σi (Ci)

where Ci is the number of credits of the ith course and Gi is the grade point scored by the student in the ith course in the given semester. Credit Point of a course is the value obtained by multiplying the credit (Ci) of the course by the grade point (Gi) of the course.

$$SGPA = \frac{Sum of the credit points of all the courses in a semester}{Total credits in that semester}$$

 ${\bf ILLUSTRATION-COMPUTATION\ OF\ SGPA}$

Semester	Course	Course Credit L		Grade	Credit Point
			Grade	point	(Credit x Grade)
I	Course 1	3	A	8	3 x 8 = 24
I	Course 2	4	B+	7	4 x 7 = 28
I	Course 3	3	В	6	3 x 6 = 18
I	Course 4	3	О	10	3 x 10 = 30
I	Course 5	3	С	5	3 x 5 = 15
I	Course 6	4	В	6	4 x 6 = 24
	Total	20			139
		SGF	PA		139/20 = 6.950

• The Cumulative Grade Point Average (CGPA) of the student shall be calculated at the end of a programme. The CGPA of a student determines the overall academic level of the student in a programme and is the criterion for ranking the students.

CGPA for the three-year programme in CUFYUGP shall be calculated by the following formula.

$$CGPA = \frac{Sum of the credit points of all the courses in six semesters}{Total credits in six semesters (133)}$$

CGPA for the four-year programme in CUFYUGP shall be calculated by the following formula.

 $CGPA = \frac{Sum \text{ of the credit points of all the courses in eight semesters}}{Total \text{ credits in eight semesters (177)}}$

- The SGPA and CGPA shall be rounded off to three decimal points and reported in the transcripts.
- Based on the above letter grades, grade points, SGPA and CGPA, the University shall issue the transcript for each semester and a consolidated transcript indicating the performance in all semesters.

6. Study Tour

Study tour to an Industrial or Business centre will form part of curriculum. The fourth / fifth semester BBA students of regular colleges shall be taken, under the supervision of faculty members, to a Business or Industrial centre so as to enable them to have firsthand knowledge about location, and operations of the Business or Industry. The report submitted by the students in this respect shall be considered as one of the assignments of the any one of the courses in the concerned semester.

Format of the Question Paper Type I for Major and Minor Courses

I Semester BBA (CUFYUGP) Degree Examinations October 2024

BBA1CJ101: <Title of the Major Course>

Detailed Syllabus:

Module	Unit	Content	Hrs	Internal (20)	External (70)
T		Paging of Decision Making	(60) 12	(30)	(70) 16
I	1	Basics of Decision-Making Meaning, Nature, and Importance of decision making and	12	20	10
	1	Business. Types of decisions: Programmed and Non-			
		Programmed decisions, Strategic, tactical, and			
		operational decisions. Factors affecting the decision			
		making.			
	2	Importance of a Structured Decision-Making Process,			
		Overview of Various Stages Involved in Decision			
		Making. Barriers in Decision-making - Psychological			
		Barriers, Structural and Organisational Barriers,			
		Environmental Barriers etc.			
	3	Tools and Techniques for Decision Making: Basic			
		Statistical Tools, Measures of Central Tendency and			
		Measures of Dispersion.			
	4	Tools and Techniques for Decision Making -			
		Understanding the Concept, Advantages, and			
		Disadvantages of various tools & techniques:			
		Brainstorming Technique, Decision Tree Analysis,			
		SWOT Analysis, Pros and Cons Analysis, PESTLE			
II		Analysis Decision Making Madala	12		10
II		Decision-Making Models Decision Making Models	12		18
	5	Rational Model of Decision-Making – Meaning,			
		Concept, Importance, Strength and Weakness of Rational Model, Practical Applications			
	6	Bounded rationality model - Meaning, Concept,			
	0	Importance, Strength and Weakness of Bounded			
		rationality Model, Practical Applications			
	7	Intuition-based decision making – Concept and Strength			
	,	and Weakness, Role of intuition in decision making,			
		different types of intuition: Expert Intuition, Social			
		Intuition, and Strategic Intuition			
	8	Group decision-making - Meaning, Concept and			
		significance, overview of various strategies used in group			
		decision-making, such as consensus building,			
		brainstorming, and multi-voting			
III		Basics of Management	12		18
	9	Management: Meaning, Nature, Functions. Roles of a			
		manager in an organisation			

11/	10 11 12	Evolution of management Thought: Classical, Behavioural, Neo Classical, Modern Types and Levels of management Decision Making Styles of Managers – Autocratic, Participative, Consultive, Consensus, Directive, Analytical, Cognitive, Behavioural styles	12		10
IV	18	Functions of Management Planning and Decision-making in Management:	12		18
	10	Planning and Decision-making in Management: Meaning, Nature, Importance, and types.			
	19	Organising and Leading in Management: Meaning, Nature, and Importance. Organisational Structure, Motivation and Leadership			
	20	Staffing in Management: Meaning, Nature, and Importance. HR planning, Recruitment, Selection, Training and Development.			
	21	Controlling in Management: Meaning, Nature, Importance, and Steps in control process. Levels and Types of Control.			
V		Open Ended Module	12	10	
	1	Case Study Analysis and Presentation: Students work in groups to analyse assigned case studies of businesses facing strategic decisions. They must present their analysis, recommendations, and action plans to the class, followed by a Q&A session.			
	2	Ethical Decision-Making Debate: Organize debates on ethical dilemmas faced by businesses, such as sustainability practices, labor rights, or consumer privacy. Students take stands, present arguments, and propose ethical solutions.			
	3	SWOT Analysis Workshop: Students select a real company and conduct a SWOT analysis (Strengths, Weaknesses, Opportunities, Threats) to evaluate its strategic position. This includes researching the company, industry, and competitive landscape.			
	4	Social Media Strategy Campaign: Students design a social media marketing campaign for a product or service, including target audience analysis, content creation, and engagement strategies. They present their campaign plan and expected outcomes.			

Mapping of COs with PSOs and POs:

	PSO 1	PSO 2	PSO 3	PSO4	PO1	PO2	PO3	PO4	PO5	PO6	PO7

Course Summary	The Digital Marketing for Business course provides a thorough exploration of digital marketing intricacies, starting with an in-depth introduction to establish a strong foundation in the meaning, significance, and benefits of digital marketing. It then compares traditional and digital marketing, introducing key principles like the 7 C's and 5 A's of Digital Marketing. The course covers various types of digital marketing to ensure participants grasp strategic approaches and adapt to contemporary practices. The conclusion focuses on the Indian digital landscape, offering insights through case studies of successful campaigns. Balancing theoretical knowledge with practical applications, the course equips participants with strategic understanding and hands-on skills using industry tools. What makes this course stand out is its inclusivity, catering to both beginners and professionals. Discussions on digital marketing types, tools, and job opportunities ensure relevance for individuals at

I		Business, Economics and Markets	12	20	16
	1	Business Environment: Meaning, Nature, Importance			
	2	Business Economics: Meaning, Nature, Importance			
	3	Business Organizations: Nature and Types of firms, Internal Organization of the firm Structure of Industry, Structure—Conduct—Performance Paradigm			
	4	Economics and World of Business: Problem of Scarcity, Demand and Supply			
	5	Macroeconomic and Microeconomics Environment, Choices: Choice, Opportunity Cost, Rational Choice			
	6	The Working of Competitive Markets: Business in a Competitive Market			
	7	Price Mechanism Demand and Supply – Determinants, Schedules, Curves, Movements and Changes, and Laws			
	8	Price & Output Determination – Equilibrium and New Equilibrium			
II		Background to Demand and Supply			
	7	Demand and the Consumer: Characteristics and Approaches to Analysing Consumer Demand.	12		
	8	Marginal Utility Theory, Demand Under Risk and Uncertainty.			18
	9	Demand and the Firm: Estimating Demand Functions, Forecasting Demand			
	10	Cost and Production: Nature, Meaning and Types of costs.			
	11	Production in the Short run and Long run, Cost in the Short run and Long run			
	12	Revenue: Meaning, Nature, Types and its Curves,	_		
	1.0	Calculation of Types of Revenue.			
***	13	Relationship of Price and Revenue. Profit maximization			
III		Profit Maximization			

^{# -} Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)

	14	Alternative Market Structures: Perfect, Monopoly,			
		Monopolistic and Oligopoly Markets			
	15	Profit Maximization under Perfect Competition and	12		18
		Monopoly: The Short-run and Long-run equilibrium of the			
		firm.			
	16	Economies and Diseconomies of Scales			
	17	Profit Maximization under Imperfect Competition:			
		Monopolistic, Oligopoly and its Types			
	18	Game Theory - Single-move games, Multiple-move games			
IV		Business in the Factor Market			
	19	Labour Markets, Wages, and Industrial Relations: Market-			
		determined wage rates and employment			
	20	Power in the labour market, Low Pay and Discrimination.			
	21	Investment and the employment of capital: The pricing of			
		Capital Services, The demand for and supply of capital			
		services	12		18
	22	Reasons for government intervention in the market:			
		Markets and the role of government			
	23	Government interventions in Market, Firm and Social			
		Responsibility.			
	24	Liberalization, Privatization, and Globalization: Indian			
		Economy before and after LPG			
	25	Macroeconomics Policies: Fiscal Policy, Monetary Policy			
	26	Quantitative Easing, Balance of Payments and Exchange			
		Rates, GDP			
V		Open Ended Module			
		Case Study Analysis	10	10	
		• Economic Data Analysis Project: Students select a	12	10	
		set of economic indicators (e.g., GDP, inflation			
		rates, unemployment rates) and analyse their impact			
		on a specific industry or business sector over time.			
		They present their findings through charts, graphs,			
		and a report that discusses how these indicators			
		affect business decisions.			
		• Cost-Benefit Analysis for a Community Project:			
		Students propose a community project (e.g., a local			
		park renovation, a recycling programme) and			
		conduct a cost-benefit analysis to evaluate its			
		feasibility and potential impact. They must consider			
		various costs, benefits, and stakeholders in their			
		analysis.

	22	Modigliani & Miller Approach			
\mathbf{V}		Open Ended Module			
	1	Crisis Management Simulations: Develop role-playing	12	10	
		exercises that place students amid a financial crisis			
		scenario (e.g., a sudden market crash, a cybersecurity			
		breach affecting financial data, or a liquidity crisis).			
		Task them with developing and presenting crisis			
		management strategies that include immediate			
		responses and long-term financial planning to mitigate			
		the impact.			
	2	Social Impact Investing Workshop: Organize			
		workshops that introduce students to the concept of			
		impact investing—investments made with the intention			
		to generate positive, measurable social and			
		environmental impact alongside a financial return.			
1		Students can work on projects that involve designing an			

	impact investment strategy for a hypothetical		
	organization, emphasizing the alignment of financial		
	returns with social goals.		
3	Digital Currency and Payment Systems Seminar: Host		
	a seminar series that covers the evolution and impact of		
	digital currencies and new payment systems on		
	traditional banking and financial transactions. Topics		
	could include blockchain technology, the rise of		
	cryptocurrencies, mobile payment innovations, and		
	central bank digital currencies (CBDCs). Invite industry		
	experts to provide insights and foster discussion among		
	students on the future of money and payments.

	3	Understanding Workbook File Formats, Creating New Workbooks, Selecting Cells, AutoSum and AutoFill Function, Cell Referencing and Request. Formatting Cells, Formatting Numbers, Placing Cell Alignment, Cell, Rows and Columns, Page Layouts in Excel.			
	4	Understanding Worksheets: Adding, moving and copying Worksheets, Editing, Copying and Moving Cells, Understanding Ribbons and Toolbar			
II		Entering Formulas into Excel	10		12
	5	Entering Formulas into Excel			
	6	Control-Flow Statements-Charts in Excel- Dash Board- Sensitivity Analysis.			
	7	Creating Tornado Diagrams, Pivot Tables and charts.			
	8	Modelling with IFPS and VBA			
III		Matrix Operations	11		15
	9	Matrix Operations			
	10	Regression Analysis			
	11	Macros - Recording and Editing			
	12	Lookup and Reference Functions			
	13	DCF-NPV and IRR Function			
	14	Data Tables			
	15	Database Manipulation			
	16	Workbook Sharing & Merging- Customizing Toolbars and Menus			
***	17	User-Defined Functions- Matrix Operations in Excel- Auditing Tools	4.4		4 =
IV	1.0	Pivot tables	11		15
	18 19	Using Pivot tables Slicers -Report Filters for basic analytics, Contact Management and			
		Marketing with Excel.			
	20	Managing Customers, Vendors and Employees, Gaining Product and Service Insights.			
	21	Sales reports using Excel			
	22	Supervising Sales with Excel, Preparing Invoices.			
V		Practicum	20		
	1	Practical Sessions by using Spreadsheet Softwares		15	
	2	Spreadsheet Modeling Contests: Host competitions where students are given a set of data and a business problem to solve within a limited time. This could be done individually or in teams.			
	3	Industry Expert Sessions: Invite business professionals who use spreadsheet modelling in their work to share their experiences, challenges, and tips.

Course	This comprehensive employability course is designed to empower students with
Summary	essential skills for a successful transition into the workforce. Covering career
	exploration and planning, job search strategies, professional communication,
	critical thinking, adaptability, and digital literacy, the curriculum integrates
	theoretical concepts with practical applications. Students will develop effective
	resumes and cover letters, master job search techniques, and enhance their
	communication and collaboration skills. The course emphasizes the importance
	of adaptability, resilience, and ethical considerations in the workplace, while
	also focusing on time management, organization, and the cultivation of
	professional networks. With an emphasis on continuous learning and personal

development, students will be well-prepared to navigate the complexities of the job market, contribute meaningfully to their chosen professions, and foster a

Course Outcomes (CO):

mindset of lifelong learning.

	17	Organizational Plan: Organizational Structure and Elements of a Business Plan, including those related to Self-help Group Entrepreneurship.			

III		Financing of the Project			
	18	Start-up Costs and Financial Plan: Financial aspects of			
		starting a venture, including understanding start-up costs			
		and creating a financial plan.	11		18
	19	Financing Options available to Self-help group			
		entrepreneurs			
	20	Source of Finance: Various sources of finance for new			
		ventures, such as venture capital, angel investment, crowd			
		funding, and bank loans			
	21	Insight into what investors look for in an investment			
		proposal and an outline for a venture capital proposal			
	22	Basic Start-up Problems: Common challenges faced by			
		Start-up businesses, including those related to self-help			
	- 22	group entrepreneurship.			
	23	Role of Banks and Financial Institutions: Role of banks			
		and Financial Institutions in supporting Entrepreneurial			
13.7		Development, including self-help group entrepreneurship.		-	
IV	2.4	Government Support for Entrepreneurship			
	24	Government Promotional Measures: Incentives, Subsidies,			
		and Bounties provided by the government to support businesses.			
	25	Policy initiatives related to entrepreneurship including			
	23	those related to self-help group entrepreneurship.			
	26	Institutional Support: Central and state-level institutional	12		18
	20	support for business units, such as industrial estates and			10
		special economic zones in India			
	27	Programmes and initiatives specifically targeted towards			
		self-help group entrepreneurship			
	28	MSME Policy: Government's policy towards Small Scale			
		Industries (SSI), including Entrepreneurial Input,			
		Technical Assistance, Marketing Assistance, Sickness of			
		units, Remedial Assistance, and Training of Target Groups.			
	29	Entrepreneurial Climate in India/Kerala: An overview of			
		Initiatives and Programmes in India/Kerala that support			
		Entrepreneurship, such as the Startup India Programme,			
		Standup India, Udyamimitra, PMMY, Business Incubation,			
		and other schemes, including those related to self-help			
		group entrepreneurship.			
V		Practicum			

 Idea Generation Sessions: Organize brainstorming sessions where students are encouraged to come up with innovative business ideas. Provide prompts of challenges related to specific industries or societal problems to solve. Business Model Canvas Workshops: Have students work individually or in teams to creat business model canvases for their startup idease. Encourage them to iterate and refine their canvase based on feedback and further research. Pitch Competitions: Host pitch competitions where students present their business ideas to a panel of judges or their peers. This activity helps student improve their communication skills, refine their business concepts, and receive valuable feedback. Case Study Analysis: Provide case studies of successful and unsuccessful entrepreneurial ventures for students to analyse. Encourage them to identify key factors contributing to success or failure and apply these insights to their own entrepreneurial projects. Networking Events: Organize networking event or guest speaker sessions where students can connect with entrepreneurs, industry professionals and alumni. Networking provides valuable opportunities for mentorship, partnership building and learning from real-world experiences. 	30	20

	-	workshops where students learn to design research			
	1	projects from scratch. Cover essential components			
		such as formulating research questions, choosing			
			l	1	l

appropriate research methodologies (qualitative, quantitative, mixed methods), and designing data collection tools (surveys, interviews, observations). Students can work in groups to design a research proposal on a current business issue, encouraging collaborative learning and creativity in approach.

- Peer-Reviewed Journal Club: Create a journal club where students regularly meet to discuss and critique recent articles from peer-reviewed business journals.
- Research Ethics Seminar: Organize seminars or workshops on research ethics, focusing on issues such as data privacy, informed consent, and ethical considerations in business research. Engaging students in discussions and case studies related to ethical dilemmas in research can deepen their understanding of the importance of ethics in the research process.
- Dissertation/Thesis Proposal Defence: For advanced students, organizing a mock thesis or dissertation proposal defence can provide a comprehensive learning experience. This involves writing a research proposal, presenting it to a panel of peers and faculty, and defending the methodology and significance of their proposed research.

	Registration			
	21 Environmental Management System: Introduction, ISO			
	14000 Series Standards, Concepts of ISO 1400,			
	Requirements of ISO 14001			
	22 Benefits of EMS			
V	Open Ended Module:	12	10	
	• Quality Improvement Projects: Assign students			
	to small groups and task them with identifying a			
	real-life problem either within the university or			
	a local business. They will apply TQM tools and			
	techniques, such as the PDCA cycle, 5 Whys			
	analysis, or Six Sigma methodologies, to			
	propose and, if possible, implement			
	improvements.			
	Case Study Analysis and Presentation: Utilize case			
	studies of successful and unsuccessful TQM			
	implementations across various industries.			
	Students will analyse these cases to understand the			
	factors that led to success or failure, focusing on			
	leadership, culture, customer focus, and			
	continuous improvement. They will present their			
	findings and recommendations, fostering public			
	speaking skills and critical analysis.			
	Guest Lectures and Industry Visits: Invite quality			
	management professionals from different			
	industries to share their experiences and insights			
	on TQM practices, challenges, and outcomes.			
	Organize visits to companies that are renowned for			
	their TQM practices, allowing students to observe			
	TQM in action and engage with professionals in			
	the field.

Module	Unit	Content	Hrs (60)	Internal (30)	External (70)
I		Introduction to Financial Derivatives	10	20	16
	1	Understanding the role of financial derivatives in			
		financial markets			
	2	Introduction to basic financial derivatives: Forwards,			
		Futures, Options, Swaps			
	3	Overview of derivative markets: Exchange-traded vs			
		OTC derivatives			
	4	Hands-on: Identifying and categorizing different types			
		of financial derivatives			
II		Forwards and Futures	10		18
	5	Understanding forwards and futures contracts			
	6	Pricing of forwards and futures			
	7	Hedging using forwards and futures			
	8	Future Trading Strategies			
		Workshop: Pricing of forwards and futures			
		Group project: Hedging using forwards and futures			
III		Options and Swaps	18		18
	9	Understanding options: Call options, Put options			
	10	Option pricing models: Binomial model, Black-Scholes			
		model			
	11	Option trading strategies			
	12	Hands-on: Option pricing using Binomial model and			
		Black-Scholes model			
	13	Group project: Developing option trading strategies			
	14	Understanding interest rate swaps and currency swaps			
	15	Pricing and valuation of swaps			
	16	Credit risk in swaps			

^{# -} Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)

	17	Hands-on: Pricing and valuation of swaps]		
	18	Case study: Managing credit risk in swaps			
IV		Hedging	10		18
	19	Concepts, Basics, Long and short hedges			
	20	Cross hedging			
	21	Basis risk and hedging			
	22	Devising a hedging strategy, Managing of hedge			
V		Open Ended Module:	12	10	
	1	Interaction with Industry Expert: A session with an			
		industry expert to discuss real-world applications and			
		trends in financial derivatives			

40% Problems 60% Theory

		 Role-Playing Scenarios: Design scenarios that reflect real-world challenges in managing people. Divide students into groups and assign roles such as manager, employee, HR professional, and client. Scenarios could include addressing performance issues, navigating team conflicts, or negotiating work-life balance. Management Skill Workshops: Organize workshops focusing on specific people management skills, such as emotional intelligence, active listening, conflict resolution, and motivational techniques. These workshops can include exercises, discussions, and guest speakers from the industry to provide insights and practical advice. Project-Based Learning: Assign long-term projects that require students to apply people management skills to plan, execute, and complete a project. This could involve organizing an event, starting a mini-enterprise, or developing a campaign on a social issue. Mindfulness and Reflection Sessions: Incorporate mindfulness exercises and reflection sessions to help students develop self-awareness and emotional regulation—key components of effective people management. Activities could include guided meditations, journaling about leadership experiences, or group discussions on managing stress and fostering a positive work environment.

		• 360-Degree Feedback Exercise: Simulate a 360-			
		degree feedback process where students assess their			
		peers, are assessed by them, and conduct a self-			
		assessment. This exercise can include aspects such			
		as teamwork, communication skills, and leadership			
		abilities. It introduces students to comprehensive			
		feedback mechanisms and teaches them the value			
		of multiple perspectives in assessing performance.			
		Performance Improvement Plan Workshop: Design			
		a workshop where students learn how to develop			
		and implement Performance Improvement Plans			
		(PIPs). Students can work on hypothetical scenarios			
		where an employee's performance is below			
		expectations, requiring them to draft a PIP that			
		includes specific improvement objectives,			
		resources for improvement, and timelines.			
		resources for improvement, and unicines.

IV	1 7	Digital Marketing Metrics	10		18
	18	Return on Investment (ROI) in marketing			
	19	Website Traffic and Engagement Metrics			
	20	Social Media Metrics (likes, shares, comments)			
	21	Email Marketing Metrics (open rate, click-through rate)			
	22	Search Engine Optimization (SEO) Metrics			
V		Open Ended Module:	12	10	
		Case Study Analysis: Incorporate the analysis of			
		real-world case studies where students can			
		dissect successful and unsuccessful marketing			
		campaigns, focusing on the metrics used to			
		measure their performance.			
		Guest Speaker Series: Invite industry professionals			
		who specialize in digital marketing, data analytics,			
		or strategic planning to share insights on how they			
		use marketing metrics in their roles.			
		• Interactive Quizzes and Games: Develop quizzes			
		or online games that test students' knowledge of			
		marketing metrics in a fun and engaging way. This			
		could include scenario-based questions where			
		students have to choose the right metric to assess a			
		particular marketing strategy's success.			
		Social Media Campaign Analysis: Challenge			
		students to pick a social media campaign and			
		analyse its performance using relevant metrics.			
		They should consider engagement rates, reach,			
		conversion rates, and any other pertinent metrics.			
		This project can culminate in a presentation where			
		students propose strategies for optimizing the			
		campaign's performance based on their analysis.			
<u> </u>		campaign a performance based on their analysis.

		IMC Campaign Development Project: Divide			
		students into groups and assign each group the task			
		of developing a comprehensive IMC campaign for			
		a given product or service. This project should			
		encompass market research, target audience			
		identification, setting objectives, selecting			
		appropriate communication channels, creating			
		consistent messaging, and measuring campaign effectiveness.			
		 Social Media Strategy Workshop: Conduct workshops focused on developing social media 			
		strategies as a critical component of IMC. Students			
		learn how to create content calendars, use social			
		media analytics tools, and develop strategies for			
		engagement, influencer partnerships, and paid			
		promotions.			
		• Cross-Media Storytelling Workshop: Host a			
		workshop on creating cohesive narratives that can			
		be adapted across different media channels.			
		Students work on storytelling techniques that			
		ensure brand messages are consistent yet optimized			
		for each channel, whether it's print, digital, social			
		media, or broadcast.Public Relations Crisis Simulation: Create a crisis			
		management simulation where students must			
		develop a communication plan to address a			
		hypothetical crisis affecting a brand. This exercise			
		teaches students the importance of public relations			
		within IMC, focusing on message consistency,			
		media relations, and stakeholder communication			
		during a crisis.

		trips or virtual tours to local hospitality businesses,			
		followed by Q&A sessions with marketing			
		professionals in the hospitality sector. This direct			
	1	professionals in the hospitality sector. This uncer			1

- interaction allows students to gain insights into the practical challenges and opportunities in hospitality marketing and to apply theoretical knowledge in real-world contexts.
- Hospitality Marketing Plan Competition: Divide the class into teams and challenge them to create comprehensive marketing plans for a fictional or local hospitality business (e.g., hotel, restaurant, travel agency). This project should include market research, target audience identification, branding strategies, digital marketing plans, and budget allocations.
- Digital Marketing Workshops: Organize workshops focusing on digital marketing skills specific to the hospitality industry, such as search engine optimization (SEO) for hospitality websites, social media marketing for hotels and restaurants, and email marketing strategies for customer loyalty programmes.
- Sustainability Project: With sustainability becoming increasingly important in the hospitality industry, task students with developing a strategic marketing plan for a hospitality business that emphasizes sustainable practices. Students should research sustainable tourism trends, identify target markets interested in eco-friendly travel, and propose marketing strategies that highlight the business's commitment to sustainability.

	21	Artificial Intelligence in World Class Manufacturing and its Relation in Creating World Class Products			
	22	Indian Scenario on World Class Manufacturing -Task Ahead			
V		Open Ended Module:	12	10	
		 Sustainable Manufacturing Project: Assign teams to work on projects that aim to redesign an existing product or process to make it more sustainable, using WCM and sustainable manufacturing principles. This could involve material selection, energy efficiency, waste reduction, or lifecycle analysis. Kaizen Event for Campus Improvements: Host a Kaizen event where students identify areas for improvement within the campus or academic processes and apply Kaizen methodologies to propose and implement solutions. Cross-Cultural Manufacturing Studies: Develop a course module or series of workshops that explore how WCM principles are adapted and applied in different cultural contexts around the world.

V		Open Ended Module:	12	10	

•	Lean Manufacturing Workshop: Organize a hands-on		
	workshop where participants can apply Lean principles to		
	streamline operations in a simulated manufacturing setup.		
	Tasks can include identifying waste, implementing 5S		
	methodology, and designing a Kanban system		
•	Quality Management Escape Room: Design an escape		
	room challenge themed around solving quality-related		
	problems. Participants must use their knowledge of Total		
	Quality Management (TQM) principles, Six Sigma, and		
	ISO standards to find clues and solve puzzles to "escape."		
•	Case Study Analysis and Role Play: Present real-life case		
	studies of companies that successfully implemented		
	Quality Management systems. Follow up with role-play		
	sessions where students assume roles within these		
	companies, making decisions to address quality		
	challenges

Service Design Sprints: Implement a condensed version of a design sprint focused on developing or improving a service. Students work in teams to	
identify a problem, brainstorm solutions, prototype, and test their ideas with potential users within a short period.	
• Service Failure Analysis and Recovery Workshops: Analyse real-world cases of service failures and conduct workshops where students role-play different stakeholders (e.g., service provider, customer, manager) to explore effective service recovery strategies.	
 Collaborative Service Innovation Projects: Partner with local businesses or non-profit organizations to identify service improvement or innovation opportunities. Students work in teams to propose and, if possible, implement their solutions.

Academic	300 - 399								
Level									
Course Details	Credit	Lecture per	Tutorial	Practicum	Total Hours				
		week	per week	per week					

	4	4	-		60
Pre-requisites					
Course Summary	Air Cargo Lo comprehensive knowledge and dynamic world aspects of logi operations. It exto the final considerations a	programme skills necessary of air cargo stics manager aplores the ent destination,	designed to ary to effective transportation ment, with a ire logistics preemphasizing	ely manage the n. The course specific focus ocess, from the the unique c	ents with the e complex and covers various on air freight point of origin

Course Outcomes (CO):

СО	CO Statement	Cognitive Level*	Knowledge Category#	Evaluation Tools used
CO1	Able to build strong foundation on theories, principles, and practices of Air Cargo Operations.	U	C	Instructor- created exams / Quiz
CO2	Able to solve the air cargo logistics problems and explore the opportunities and challenges in air cargo security	Ap	Р	Practical Assignment / Observation of Practical Skills
CO3	Able to analyse and apply air cargo Strategies that foster a culture of innovation within cargo packaging solution.	Ap	Р	Seminar Presentation / Group Tutorial Work
CO4	Able to acquire a comprehensive understanding of the challenges and strategies involved in managing air cargo across global culture (Inter culture, cross culture and global)	U	С	Instructor- created exams / Home Assignments
CO5	Able to possess the knowledge and skills to integrate social, ethical and sustainability and green logistics.	Ap	Р	One Minute Reflection Writing assignments
CO6	Able to proficient in leveraging technology for warehousing function and will gain expertise in implementing digital twins and automation in warehousing and cargo operations.	Ap	Р	Viva Voce

^{* -} Remember (R), Understand (U), Apply (Ap), Analyse (An), Evaluate (E), Create (C)

^{# -} Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)

Module	Unit	Content	Hrs (60)	Internal (30)	External (70)
		Introduction to Air Cargo		20	,
	1	Introduction, Advantages, Definition, Aviation, and airline terminology			
	2	Country, currency, airlines, different types of aircraft			
	3	Aircraft manufacturers, international air routes	4.5		
I	4	Airports, Airport codes, Airline consortium, hub & spoke	13		18
	5	Consortium, Risk associated with air cargo logistics			
	6	Air cargo services, Related services			
	7	Advices - Booking – SLI – Labelling			
	8	Air cargo rates and charges			
		Introduction to Airline Industry			
	7	Introduction, History, Importance of Air cargo industry			
	8	navigation systems, Air transport system, Functions			
	9	Terminal area, Landside operations			
II	10	Civil Aviation, Safety and Security, aircraft operator's			
111		security programme	14		20
	11	Security v/s facilitation - Training and Awareness in Airline	14		
	12	rescue and firefighting, Issues and Challenges			
	13	Airline regulations			
		Airline Marketing and Customer Service			
	14	Introduction of Marketing, Marketing Environment,			
III	15	Marketing Research, Airline Marketing Strategies and Planning	10		16
111	16	Airline Marketing Segmentation, SWOT Analysis	10		10
	17	Consignee - Controlled Cargo, Sales Leads, Airline Routing Instructions			
	18	Customer Service, Future Trends in Airline Marketing			
		Air Freight Forwarding			
	19	Air freight Exports and Imports, Air freight Special Cargoes	_		
	20	Air freight Consolidation, Air freight Documentation	11		16
	21	Air Way Bill (AWB), Communication, Freight Handling COD shipments			
	22	POD, Dangerous (DGR) or hazardous goods,			
		Open Ended Module			
V		 Case Study Analysis: Students are given case studies of air cargo legal cases. They analyse the cases, focusing on the legal principles involved, the decisions made, and their implications for the business environment. Field Visits: Should visit major airports in India. 	12	10

V		Open Ended Module	12	10	
		 Case Study Analysis Problem Framing Exercise: Present students with a complex problem and ask them to frame it from different perspectives, such as user needs, business objectives, and societal impact. Encourage them to explore the problem space thoroughly and identify underlying challenges and opportunities. Ideation Challenge: Organize an ideation challenge where students compete to generate the most creative and feasible solutions to a given problem. Provide them with constraints and prompts to spark creativity, and allow them to pitch their ideas to a panel of judges or peers. Innovation Pitch Competition: Invite students to develop and pitch innovative business ideas or product concepts. Provide them with resources and mentorship to refine their ideas and develop compelling pitches. Host a pitch competition where students present their ideas to a panel of judges, investors, or industry professionals. Guest Speaker Series: Invite guest speakers from diverse backgrounds, including design professionals, entrepreneurs, and innovation leaders. Have them share their experiences, insights, and best practices related to design thinking, problem-solving, and innovation. Encourage students to engage with the speakers through Q&A sessions and discussions.

		intergenerational communication.						
		• Family Business Simulation Game: Develop a family						
		business simulation game where students play the role						
		of family members and executives within a fictional						
		family-owned enterprise.						
		Guest Speaker Series: Invite guest speakers from						
		diverse backgrounds, including family business						
		owners, industry leaders, and academic experts. Have						

speakers share their experiences, insights, and lessons learned in managing and leading family-owned enterprises. Allow students to engage with speakers through Q&A sessions and discussions, gaining valuable perspectives on various aspects of family business management. • Networking and Mentorship Events: Facilitate networking events and mentorship opportunities for students interested in family business management. Connect students with alumni, industry professionals, and family business owners for mentorship, advice, and career opportunities.

Module	Unit	Content	Hrs (60)	Internal (30)	External (70)
I		Introduction to Venture Planning	12	20	16
	1	Business Plan and Execution, Review Business Plan, VMOSA.			
	2	The Scope of Entrepreneurship Research			
	3	New Venture options – New business, buy an existing venture, franchisee, Lean Start-up, assessing entrepreneurial behaviour, starting a new venture as a corporate entrepreneur.			
	4	Steps to develop startup's corporate culture			
	5	Organizational Development in startups.			
II		New venture Analysis	12		18
	6	Concept Planning, Feasibility Analysis, Planning the launch of venture, Designing the business.			
	7	SWOT, PESTEL, Formulating strategy, Industry and market analysis, Porter's five forces, potential strategies to position venture successfully.			

^{# -} Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)

	8	Opportunity creation and recognition, Feasibility Analysis,		
		Risk analysis, Lean start-up strategy, strategies for		
		achieving/sustaining competitive advantage.		
	9	Tools for identifying resource requirements and building		
		capabilities, Designing the business model for competitive		
		advantage, strategic partnerships, Resource building.		
	10	Business idea, Opportunity Recognition, Product Planning		
		and Development Process, Establishing Evaluation Criteria,		
		Idea Stage, Concept Stage, Product Stage, Test Marketing		
		Stage,		
	11	Creativity, Innovation and entrepreneurship, Techniques for		
		improving the creative process, Corporate Entrepreneurship,		
		Intrapreneurial leadership characteristics.		
III	T	he Startups identity: Winning Startup Communication	12	18
		Strategy		
	12	Elevator Pitches for make-it-or-break-it meetings,		
		Reviewing sample elevator pitches of successful startups		
	13	Practical exercise on how to write an effective elevator		
		pitch.		
	14	Professional persona pitch: Building your professional		
		persona, Creating a unique and authentic elevator pitch.		
	15	Perfecting pitch. How write an official resume for business		
		plan and other communication materials. The resume		
		snapshot should briefly describe the venture, then highlight		
		elements of the entrepreneur's background that support the		
		venture and enhance his/her credibility.		
	16	Mission Statement and Vision Statement Defining process.		
IV		Stakeholders Communication Analysis and Planning	12	18
	17	Brand Messaging for Early-stage Startups, Developing		
		initial brand strategy, case studies of successful and failed		
		startups.		
	18	Customer segments, competitors, and community		
		stakeholders might shape communication strategy. Findings		
		must be based on research, with no generalizations or		
		stereotypes.		
	19	Target Customer Research: Analysing target customers, how		
		do target customers communicate? What media target		
		customers primarily consume? Who influences target		
		customers? How they communicate (i.e., the language they		
		prefer in writing or speaking).		
	20	Rationale for selecting target segment(s). How tell a story		
		that resonates with your target audience.		
	21	Employer Brand Management: attract the right employees,		
	- 22	interns		
	22	Competing Brands Analysis: Identifying top five		
		competitors, direct or indirect, and conducting in-depth		
	Ī	analysis.		
				l
	23	Evaluating competitors branding communication, What media and messages they use.		

V	Open Ended Module	12	10	
	Startup Simulation Game: Divide students into teams and have them simulate the process of launching a startup. Provide each team with a hypothetical business scenario and challenge them to develop a business plan, execute strategies, and navigate various obstacles. Encourage creativity, critical thinking, and collaboration as teams compete to build successful ventures. Case Study Analysis: Assign case studies of real-world startups, both successful and failed. Have students analyze these cases using frameworks learned in the course, such as SWOT analysis, Porter's Five Forces, and business model canvas. Facilitate discussions on lessons learned, key success factors, and areas for improvement. Venture Pitch Competition: Organize a venture pitch competition where students pitch their business ideas to a panel of judges, consisting of industry experts, investors, or faculty members. Encourage students to develop compelling elevator pitches and presentation decks that effectively communicate their venture concepts, value propositions, and growth strategies. Industry Immersion Experience: Arrange industry visits or guest lectures by successful entrepreneurs, startup founders, or industry professionals. Provide students with firsthand exposure to entrepreneurial environments, allowing them to learn from real-world experiences, network with industry leaders, and gain insights into emerging trends and opportunities. Entrepreneurial Leadership Seminar Series: Invite successful entrepreneurs, industry leaders, and startup mentors to deliver seminars or workshops on entrepreneurial leadership, innovation, and business growth strategies. Encourage students to engage with guest speakers through Q&A sessions, panel discussions, and networking opportunities, allowing them to gain valuable insights and mentorship. Startup Accelerator Programme: Launch a startup accelerator programme within the course, offering mentorship, resources, and support to student-led startup teams. Provide access to co-wo	12	10

	22	Change Agent, Roel & Skills of a Change Agent, HR			
		Role as Change Agent, Resistance to Change and Minimizing Resistance			
V		Practicum	30	20	
1	HR Str	rategy Development Workshops: Students are divided into	"		
		and given a scenario involving a company facing specific			
		ated challenges. Each team will develop an HR strategy			
		ddresses these challenges, focusing on aspects such as			
		management, diversity and inclusion, and employee			
		ement. Teams present their strategies to the class, followed			
	by a co	onstructive critique session.			

2	Interactive Case Studies: Students work in groups to analyse		
_	detailed case studies of organizations facing complex HR issues.		
	They must propose solutions, considering strategic alignment,		
	stakeholder impact, and long-term sustainability. Presentations		
	are made to the class, followed by feedback sessions.		
3	HRM Innovation Lab: Create an "innovation lab" where students		
	ideate and develop innovative HR solutions, such as new		
	employee wellness programs, technology-driven recruitment		
	tools, or creative benefits packages.		
4	Leadership and Management Role-Play: Role-playing exercises		
	where students assume the roles of HR professionals, managers,		
	and employees in scenarios involving negotiation, conflict		
	resolution, or leadership challenges.		

Mapping of COs with PSOs and POs:

		and Programmes for International Markets			
V		Practicum	30	20	
	•			L.	

International Marketing Plan Competition: Students work in teams to create a marketing plan for a product or service of their choice in a foreign market. The plan should include market analysis, segmentation, targeting, positioning, marketing mix, and financial projections. Teams present their plans to a panel of judges (faculty or industry professionals), and the best plan is awarded.

Virtual International Market Visits: Utilize virtual reality (VR) or online platforms to simulate visits to international markets. Students can explore marketplaces, retail environments, and consumer behaviours in different countries. Post-visit, they discuss their observations and how they impact marketing strategies.

Cultural Sensitivity Workshop: Students select a brand and develop a digital marketing campaign that includes social media, SEO, content marketing, and online advertising.

	companies. They could role-play as the company's financial advisors or the entrepreneurs themselves, proposing alternative strategies and defending their choices in a class		
	discussion or presentation.		
2	Venture Pitch Competitions: Organize pitch competitions where students create business plans for their startup ideas, focusing specifically on the financial aspects. They must present their capital management strategies, including how they plan to raise funds (e.g., through equity, debt, or crowdfunding), manage cash flow, and ensure sustainability. Invite guest judges from the local entrepreneurial community		
	to provide feedback and select the best pitches.		
3	Financial Model Workshop: Host workshops where students learn to build financial models for startups from scratch. This would include forecasting revenues, costs, determining burn rate, and calculating key financial metrics important for investors, such as the break-even point, ROI, and valuation methods.		
	Mentorship Programme: Pair students with local entrepreneurs or financial advisors who can mentor them through a mini-project, such as developing a financial plan for a startup. This real-world interaction provides valuable insights into the challenges and strategies of entrepreneurial capital management.

		Positioning—Brand Positioning Strategies Brand			
T 7		Positioning Variables.	10	40	
V	4	Open-ended Module	12	10	
	1	Brand Development Workshop: Divide students into teams			
		and assign each team the task of creating a brand from			

	scratch. This includes developing a brand name, logo, slogan, and a comprehensive brand identity manual.		
2	Digital Marketing Campaign: Students can create a digital marketing campaign for a product or service, including social media content, email marketing, and paid advertising strategies.		
3	Creative Pitch Competition: Simulate a real-world pitch scenario where students or groups develop an advertising campaign for a given product or service and pitch their ideas to a panel of judges (which can include faculty members and industry professionals).		
4	Social Media Challenge: Encourage students to create content for social media platforms that aligns with a brand's voice and target audience. This can be a competition where the best content is recognized.		

Mapping with PSOs and POs:

	PSO1	PSO2	PSO3	PSO4	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO 1	3	2	1	2	3	1	2	2	3	2	3
CO 2	3	3	2	3	2	3	2	2	2	3	3

V		Practicum	30	20	
		Interactive Culinary Workshops: Conduct culinary			
		workshops can offer hands-on learning about various			
		cuisines, food safety standards, and presentation techniques. Partnering with local chefs or culinary			
		schools can provide students with insights into the			
		culinary world and enhance their understanding of			
		its role in hospitality and tourism.			
		Sustainable Tourism Project: Encourage students to			
		develop sustainable tourism projects that focus on			
		environmental conservation, cultural preservation,			
		and economic benefits for local communities. This			
		could involve creating sustainable tour packages,			
		promoting eco-friendly lodging options, or			
		developing initiatives to support local artisans.			

Event Planning and Execution Workshop: Organize	
workshops where students plan, promote, and	
execute an event, such as a cultural festival,	
gastronomy fair, or a hospitality industry conference.
